Review and approval of last meeting minutes: The Minutes from the previous meeting were approved as presented.

**Old Business**

C.L. Playground repair- all items were accounted for and put together by maintenance department and installed on the playground 12-09 -2015

M.S. Parent trip- sidewalk needs to be investigated, temporary orange paint will be put on any potential trip areas.

**New Business**

Review New Accident / Incident Report- none

-New stop rail was installed on the kitchen dock to allow food cart to be stopped from rolling off the dock onto the parking lot.

-Annual safety training dates are scheduled for 2-11-16 with a make-up day of 3-10-16 from 3:30pm until 5:30pm. approved by committee

-All prices were reviewed for asbestos abatement planning purposes. Estimated total abatement Cost not to exceed \$250,000.00 for total district.

-Paper towel dispensers for C.L. School student's restrooms to allow a more efficient way for the younger students to be able to get a paper towel more easily without the constant jamming. We had a sample type brought in by a vendor that is of the automatic type costing \$52.50 each. This one would take the same roll of paper towels that we currently use in our other dispenser. Planning to purchase 2 dispenser for try out in 1<sup>st</sup> grade hallway bathrooms first, with intent to purchase 2 more for Kindergarten bathroom at a later date.

-We have been introduced to a new hand foaming soap that would be comparable to what we use now. Switching over to this soap would come with new dispenser free of charge for the entire district. The new dispensers would Not have the mascot on the front of them. The new soap program would save the district approximately \$2000.00 or more per year. Committee in favor for the change.

Other Business- None

Next Meeting: The Committee will meet on January 14, 2015 @ 3:30pm in ADMIN old band room.

Meeting Adjourned: 4:15pm
